XM or Sirius Audi Satellite receiver installation

Step#05a

Side clip location. Use trim tools to remove without damaging painted surfaces. Please note, you will need a great amount of effort to pull the panel out. Using the proper tools will make the removal easier.

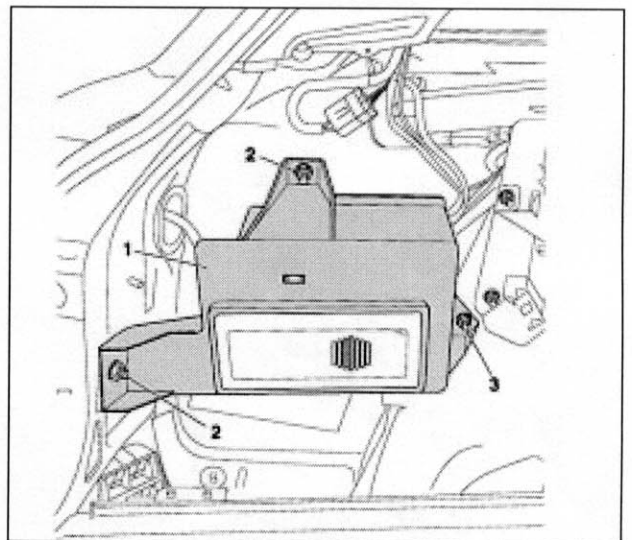

Step#05b

Side clip location.

Step#05c

Additional clip locations. These will need to be properly aligned when reinstalling. Pull back the side trim enough so that you can access the support bracket. *Do not over bend! This will damage the trim part!*

Step#06 Removing support bracket.

Remove bolts: (4x) #2 nut using 13mm socket, #3 nut using 10mm socket, #2 nut (5Nm), #3 nut (3 Nm). Pull back the structure so that you can work at the rear of it without stressing any of the wires present.
