

Security

SunScreen Secure Net 3.1

SunScreen 3.1 is a versatile firewall used for access control, authentication, and network data encryption. Each physical interface can operate in one of two modes: routing or stealth. Virtual interfaces are supported only in routing mode. Platform Editions as well as SKIP clients for Windows 95 and Windows NT, and Solaris SPARC and Intel Platform Editions.

SunScreen consists of a rules-based, dynamic packet-filtering engine for network-access control, and an encryption and authentication engine that allows you to create secure Virtual Private Network (VPN) gateways by integrating public-key encryption technology. It is the first firewall to address high availability (HA) for standards-based encryption. Secure administration is provided through an easy-to-use administration graphical user interface (GUI) through a Web browser.

An interface in stealth mode does not have an IP address, nor does it have a TCP/IP stack. This makes the stealth configuration excellent for perimeter defense.

Requires:

- Solaris 2.6, Solaris 7 or Solaris 8.

Description	Order Number
SunScreen Secure Net 3.1	
SunScreen Secure Net 3.1 Comprises: 1 unlim user Server RTU SunScreen 3.1, 250 client RTUs of SunScreen SKIP for Windows 95, Windows 98, NT, or Solaris. Product includes 56 bit encryption.	SSNM9-310W9999
SunScreen Secure Net 3.1 for Workgr Comprises: 1 100 user Server RTU of SunScreen 3.1, 100 client RTUs of SunScreen SKIP 3.0.7 for Windows 95,98,NT and SunScreen SKIP 1.5.1 for Solaris. This product provides 56 bit level of encryption.	SSNM9-310WW999
SunScreen Secure Net 3.1 Packs	
SunScreen Secure Net 3.1 10 pack Comprises: 10 unlim user Svr RTUs SunScreen 3.1, 250 client RTUs of SunScreen SKIP 3.0.7 for Windows 95, 98 & NT, or SKIP 1.5.1 for Solaris. Product includes 56 bit encryption.	SSNX9-310W9999
SunScreen SecureNet 3.1, (Unlimited 3 pack) for SPARC/Intel, CD-ROM, 3 Server RTU License, Hard Copy and On-line Documentation. Each pack includes 250 RTUs of SKIP 3.0.7 for Windows 95, 98 & NT or SKIP 1.5.1 for Solaris. Product has 56 bit encryption.	SSN39-310A9999
SunScreen Secure Net 3.1 Corporate Enterprise License	
SunScreen Secure Net 3.1 Site Lic Comprises: Org.Svr RTUs (20K users) SunScreen 3.1, 250 client RTUs of SunScreen SKIP 3.0.7 for Windows 95, 98 & NT, or SKIP 1.5.1 for Solaris. This product has 56 bit encryption.	SSNS9-310W9999
SunScreen Secure Net 3.1 Evaluation Kit	
SunScreen Secure Net Eval Kit Comprises: 1 unlim user Server RTU SunScreen 3.1, 250 client RTUs of SunScreen SKIP 3.0.7 for Windows 95, 98 & NT or SKIP 1.5.1 for Solaris. Product has 56 bit encryption.	SSNM9-310W9D99

SunScreen SKIP 1.5.1

SunScreen SKIP 1.5.1 (Simple Key-management for Internet Protocols) is an IP-layer encryption and authentication software module that creates secure virtual private networks on Solaris Operating Environment software. SunScreen SKIP 1.5.1 is available as a standalone product as well as a bundled product in SunScreen Secure Net 3.1, its primary delivery channel.

Description	Order Number
SunScreen SKIP 1.5.1, 56 bit	SKPIS-151ED999
SunScreen SKIP 1.5.1, 128 bit	SKPIS-151ND999

Ordering Notes

- *The 56 bit SKIP 1.5.1 product contain 1024-bit Diffie-Hellman base encryption, RC2, RC4, and DES encryption algorithms. The 128 bit version contains 2048-bit and 4096-bit Diffie-Hellman base encryption (RC2, RC4, DES, 3DES, and SAFER).*
- *Sun can export the 56 bit SKIP to all worldwide end-users, worldwide, except those in embargoed nations Afghanistan, Cuba, Iran, Iraq, Libya, North Korea, Serbia/Montenegro (Yugoslavia), Sudan and Syria, plus all the parties listed on the Denied Parties List.*
- *Sun can export the 128-bit SKIP to all NON-government end-users, worldwide, except embargoed nations Afghanistan, Cuba, Iran, Iraq, Libya, North Korea, Serbia/Montenegro (Yugoslavia), Sudan and Syria, plus all the parties listed on the Denied Parties List. Sun can NOT sell 128 bit encryption products to foreign governments.*

Government, as defined in the Export Administration Regulations:

- *Government End-User (as applied to encryption items). A government end-user is any foreign central, regional or local government department, agency, or other entity performing governmental functions; including governmental research institutions, governmental corporations or their separate business units (as defined in part 772 of the EAR) which are engaged in the manufacture or distribution of items or services controlled on the Wassenaar Munitions List, and international governmental organizations.*
- *This term does NOT include: utilities (including telecommunications companies and Internet service providers); banks and financial institutions; transportation; broadcast or entertainment; educational organizations; civil health and medical organizations; retail or wholesale firms; and manufacturing or industrial entities not engaged in the manufacture or distribution of items or services controlled on the Wassenaar Munitions List.*

SunScreen SKIP 3.0.7 for Windows 95/Windows NT

The SunScreen SKIP 3.0.7 encryption client is a software package that enables encryption of all communications from one SKIP loaded client-server to another. A key solution for todays Virtual Private Networking demands. It is one of the strongest and fastest encryption software packages available on the market today. SKIP 3.0.7 now interoperates with Microsoft NT, Microsoft Windows 95, and Microsoft Windows 3.1.1, making it an essential part of your network security solution.
